ESSENTIALS OF ARTIFICIAL INTELLIGENCE

INDIVIDUAL CONTRIBUTION SHEET

Student Name	SHSA Fernando	**Registration No.**	D/COE/25/0017
Degree / Intake	BSc (Hons) Computer Engineering / Intake 42	**Group No.**	32
Project Title	SmartStudy AI: A Hybrid Artificial Intelligence Academic Advisory System		

Technical Contributions:

Task / Component	My Contribution	Tools / AI Technique Used	Evidence / Output
Model Fine-Tuning	Trained the base model on KDU-specific curriculum data using parameter-efficient fine-tuning methods.	PEFT (Low-Rank Adaptation / LoRA)	Fine-tuning scripts, Training Loss logs
Local LLM Deployment	Configured the offline inference backend to run Llama 3.2 and Phi-3.5 Mini entirely on-device without cloud dependencies.	Ollama Framework, Meta Llama 3.2	Terminal execution logs (ollama list)
Constrained Decoding	Programmed the Modelfile to enforce strict hyperparameters (Temperature 0.2, Top-P, repeat penalties) to prevent text hallucination.	Stochastic Search / Constrained Decoding	Modelfile

Declaration

I confirm that the contributions listed above accurately represent my individual work in this group project, and I can explain or demonstrate the stated work if required.

Student Signature: **Date:** 17/10/2026

Evidence may include source code, model/notebook, diagram, dataset work, test results, screenshots, report section or presentation slides.
